

Oral Brain Science

Kyudai Oral Bioscience (KOB) 2018

Healthy Longevity from Oral Brain Science: From Basic to Clinical Research-(1)

口腔ブレインサイエンスからの健康長寿：基礎から臨床研究へ-(1)

日時：2月11日（日）13:00～18:10、12日（月・祭日）9:30～12:55
会場：九州大学コラボステーションI・視聴覚ホール（参加無料）

<Feb 11 (Sun) 2018 13:00～18:10>

Session 1 Oral Health and Cognitive Function

Neurodegeneration by Tooth Loss Causes Cognitive Impairment
Tetsuya Goto (Kagoshima University)

Physiological Study on Swallowing Performance
Makoto Inoue (Niigata University)

Session 2 Periodontitis and Alzheimer's Disease

Peripheral Inflammatory Conditions Contribute to Alzheimer's Disease: *the Periodontal disease model*
Angela R. Kamer (New York University)

Mechanisms Linking Periodontal Disease to Alzheimer's Disease
Zhou Wu (Kyushu University)

Session 3 Treatments and Biomarkers for Alzheimer's Disease

Development of Drug (GT863) for Alzheimer's Disease
Hachiro Sugimoto (Doshisha University)

Sequester Proteins Involved in Amyloid- β Clearance as Blood-based Biomarkers for Alzheimer's Disease
Kazuhiko Uchida (Tsukuba University)

<Feb 12 (Mon) 2018 9:30～12:55>

Educational Lecture 1

Oral Supportive Care for Cancer Therapy
Haruhiko Kashiwazaki (Kyushu University)

Educational Lecture 2

Innovation in Education and Research at LSU School of Dentistry
Janice A. Townsend (Louisiana State University)

PhD Student Session
